FORWARD-LOOKING STATEMENT

This presentation contains statements concerning the Company's future results and performance that are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements are based on various assumptions and may not be accurate because of risks and uncertainties surrounding the assumptions. Factors listed below, as well as other factors, may cause actual results to differ significantly from these forward-looking statements. There is no guarantee that any of the events anticipated by these forward-looking statements will occur. If any of the events occur, there is no guarantee what effect they will have on Company operations or financial condition. The Company will not update these forward-looking statements after the date of the presentation.

Some forward-looking statements discuss the Company's plans, strategies and intentions. They use words such as "expects," "may," "will," "believes," "should," "approximately," "anticipates," "estimates," and "plans." In addition, these words may use the positive or negative or a variation of those terms.

This presentation contains forward-looking statements about the Company's expectations regarding the Company's potential for strong EBITDA growth; growth in the dividend over time; the return of housing to long-term trend levels; growing domestic and global markets for logs, increasing harvest volume and value, and positive trends in demand in the Timberlands segment; increasing demand for U.S. lumber, and revenues and earnings in the Wood Products segment; positive long-term trends in our real estate markets, revenues and earnings, and controlling costs and enhancing margins in the Real Estate segment; growing global market reach, revenues and earnings, expanding margins, growing strategic customer relationships, and product innovation in the Cellulose Fibers segment. Major risks, uncertainties and assumptions that affect the Company's businesses and may cause actual results to differ from these forward-looking statements include, but are not limited to:

- general economic conditions, including employment rates, housing starts, interest rate levels, availability of financing for home mortgages and strength of the U.S. dollar;
- market demand for the Company's products, which is related to the strength of the various business segments and economic conditions;
- performance of the Company's manufacturing operations, including maintenance requirements;
- raw material prices and energy and transportation costs;
- successful execution of internal performance plans including restructurings and cost reduction initiatives;
- level of competition from domestic and foreign producers;
- the effect of weather and the risk of loss from fires, floods, windstorms, hurricanes, pest infestation and other natural disasters;
- federal tax policies;
- the effect of forestry, land use, environmental and other governmental regulations;
- legal proceedings;
- the effect of timing of retirements and changes in the market price of our common stock on charges for share-based compensation;
- changes in accounting principles;
- performance of pension fund investments and derivatives; and
- the other factors described under "Risk Factors" in the Company's annual report on Form 10-K.

The Company also is a large exporter and is affected by changes in economic activity in Europe and Asia, particularly Japan and China. It also is affected by changes in currency exchange rates, particularly the relative value of the U.S. dollar to the Canadian dollar, Euro and Yen. Restrictions on international trade or tariffs imposed on imports also may affect the Company.

¹Adjusted EBITDA is a non-GAAP measure that management uses to evaluate the performance of the company. Adjusted EBITDA, as we define it, is operating income from continuing operations adjusted for depreciation, depletion, amortization, pension and postretirement costs not allocated to business segments (primarily interest cost, expected return on plan assets, amortization of actuarial loss and amortization of prior service cost / credit), special items and interest included in cost of products sold. Adjusted EBITDA should not be considered in isolation from and is not intended to represent an alternative to our GAAP results.

PATTY BEDIENT

Patty Bedient was named Executive Vice President and Chief Financial Officer in April 2007. She became senior vice president of Finance and Strategic Planning in February 2006 and from February 2003 to 2006 she served as vice president of Strategic Planning.

Prior to joining the company, Patty was with Arthur Andersen LLP for 27 years, where she served a number of clients in the forest products, manufacturing, distribution and educational service industries. She began her career with Arthur Andersen in Portland, Oregon, becoming a partner in 1987. In 1993 she transferred to the Boise, Idaho, office. From 1999-2002 she served as the managing partner for the Seattle office and as the partner in charge of the firm's forest products practice.

Bedient attended Oregon State University where she received a bachelor of science degree in Business Administration, with a concentration in accounting and finance.

Patty is a certified public accountant and is a member of the American Institute of CPAs and the Washington Society of CPAs.

She currently serves on the board of directors of Alaska Air Group, the Oregon State University Foundation board of trustees, the advisory board for the University of Washington School of Business, and the San Francisco regional advisory board for FM Global.

She has served on the boards of the World Forestry Center, the Forest History Society, and the Forest Research Lab advisory committee, Oregon State University.

Bedient was recently recognized by the Wall Street Journal as one of the top 25 finance executives at S&P 500 companies.
