*Adjusted EBITDA is a non-GAAP measure that management uses to evaluate the performance of the company. Beginning in the first quarter of 2016, we revised our definition of Adjusted EBITDA to add back the basis of real estate sold. We have revised our prior-period presentation to conform to our current reporting.
Adjusted EBITDA, as we define it, is operating income from continuing operations adjusted for depreciation, depletion, amortization, basis of real estate sold, pension and postretirement costs not allocated to business segments and special items. Adjusted EBITDA excludes results from joint ventures.

Our definition of Adjusted EBITDA may be different from similarly titled measures reported by other companies. Adjusted EBITDA should not be considered in isolation from and is not intended to represent an alternative to our GAAP results.
