FORWARD-LOOKING STATEMENTS AND NON-GAAP FINANCIAL MEASURES

This presentation contains statements and depictions that constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, as amended, including without limitation with respect to the following: future goals and prospects, including 2025 goals and targets relating to our timberlands investments, operational excellence and sustainable margin improvements, growth and annual Adjusted EBITDA performance of our Natural Climate Solutions business, increase in annual lumber production, reductions of greenhouse gas emissions, achievement of external ESG recognitions, growth of our base dividend and annual returns of cash to shareholders; business strategies; factors affecting market supply of lumber; key initiatives; expected levels of demand and market drivers for our products, including expected growth projections in U.S. housing demand and repair and remodel activity and adoption of wood-based building; market dynamics; replenishment of HBU acres through timberland acquisitions; expected growth in export markets; our cash dividend framework, base dividend sustainability and target annual growth, and our target percentage return to shareholders of Adjusted Funds Available for Distribution (Adjusted FAD), including expected supplemental cash dividends and future share repurchases; capital structure, credit ratings, debt maturities, liability management, and revolving line of credit capacity; our outlook for capital expenditures across the company for 2023 and through 2025; our sustainability practices and ambitions and goals and our greenhouse gas emissions reduction targets; and our expectations concerning future growth in demand for climate change mitigation and carbon markets and resulting expected growth in cash flow from our natural climate solutions business and enhanced timberland values. Forward-looking statements can be identified by the fact that they do not relate strictly to historical or current facts and may be identified by our use of certain words in such statements, including without limitation words such as “committed,” “expect,” “emerging,” “growing,” “maintain,” “outlook,” “sustainable,” “target,” “will,” and similar words and terms and phrases using such terms and words, as well as references to future dates. Depictions or illustrations that constitute forward-looking statements may be identified by graphs, charts or other illustrations indicating expected or predicted occurrences of events, trends, conditions, performance or achievements at a future date or during future time periods. We may refer to assumptions, goals, targets, or expected performance through, or events to occur by or at, a future date, and such references may also constitute forward-looking statements. Forward-looking statements are based on our current expectations and assumptions. The realization of our expectations and the accuracy of our assumptions are subject to a number of risks and uncertainties that are difficult to predict and often are beyond the company’s control. These and other factors could cause one or more of our expectations to be unmet, one or more of our assumptions to be materially inaccurate or actual results to differ materially from those expressed or implied in our forward-looking statements, or all of the foregoing. Such uncertainties and other factors include without limitation: the effect of general economic conditions, including employment rates, interest rate levels, inflation, housing starts, general availability of financing for home mortgages and the relative strength of the U.S. dollar; the effects of COVID-19 and other viral or disease outbreaks, including without limitation any related regulatory restrictions or requirements and their potential impacts on our business, results of operations, cash flows, financial condition and future prospects; market demand for the company’s products, including market demand for our timberland properties with higher and better uses, which is related to, among other factors, the strength of the various U.S. business segments and U.S. and international economic conditions; changes in currency exchange rates, particularly the relative value of the U.S. dollar to the Japanese yen, the Chinese yuan, and the Canadian dollar, and the relative value of the euro to the yen; restrictions on international trade and tariffs imposed on imports or exports; the availability and cost of shipping and transportation; economic activity in Asia, especially Japan and China; performance of our manufacturing operations, including maintenance and capital requirements; potential disruptions in our manufacturing operations; the level of competition from domestic and foreign producers; the success of our operational excellence initiatives; the successful and timely execution of our strategic acquisitions strategy, including the successful integration of our acquisitions and our ability to realize expected benefits and synergies, and the successful and timely execution of our strategic divestitures, each of which could be subject to a number of risks and conditions beyond our control including without limitation timing, required regulatory approvals or the occurrence of any event, change or other circumstances that could give rise to a termination event under the terms of the governing transaction agreements; raw material availability and prices; the effect of weather; changes in global or regional climate conditions and governmental response to any such changes; the risk of loss from fires, floods, windstorms, hurricanes, pest infestation and other natural disasters; energy prices; availability and costs for transportation and labor; federal tax policies; the effect of forestry, land-use, environmental and other governmental regulations; legal proceedings; the performance of pension fund investments and related derivatives; the effect of timing of employee retirements as it relates to the cost of pension benefits and changes in the market price of our common stock on charges for share-based compensation; the accuracy of our estimates of costs and expenses related to contingent liabilities and charges related to casualty losses; changes in accounting principles; and other risks and uncertainties identified in our 2022 Annual Report on Form 10-K, as well as those set forth from time to time in our other public statements and reports, including reports, registration statements, prospectuses, information statements and other filings with the SEC, as well as other factors not described herein because they are not currently known to us or we currently judge them to be immaterial. There is no guarantee that any of the events anticipated by these forward-looking statements will occur, and if any of the events do occur, there is no guarantee what effect they will have on the company’s business, results of operations, cash flows, financial condition and future prospects. Forward-looking statements speak only as of the date they are made, and we undertake no obligation to publicly update or revise any forward-looking statements. Nothing on our website is intended to be included or incorporated by reference into, or made a part of, this presentation. Also included in this presentation are certain non-GAAP financial measures that management believes complement the financial information presented in accordance with U.S. GAAP and therefore may be useful to investors. Our non-GAAP financial measures may not be comparable to similarly named or captioned non-GAAP financial measures of other companies. Except for certain forward-looking non-GAAP measures, a reconciliation of each presented non-GAAP measure to its most directly comparable GAAP measure is provided in the appendices to this presentation.

WHO WE ARE

Largest Timber REIT with Unmatched & Complementary Industry-Leading Businesses

TIMBERLANDS

We are the largest private timberland owner in North America

- Unrivaled portfolio that cannot be replicated
- Leader in sustainable forestry practices
- 11 million acres owned in the U.S. and 14 million acres licensed in Canada

REAL ESTATE, ENERGY & NATURAL RESOURCES

We capture the highest value from every acre

- Expertise and technology platform enables end-to-end portfolio value creation
- Emerging Natural Climate Solutions business will serve the rising demand for net-zero solutions

WOOD PRODUCTS

We are one of North America's largest, low-cost wood products manufacturers

- Industry-leading scale, brand and reputation
- Diversified mix of high-quality products
- 35 manufacturing facilities across North America

CARBON PLATFORM

We are an unrivaled carbon investment opportunity

- Our forests and wood products sequester millions of tons of CO₂ annually, and we are significantly carbon negative
- Emerging carbon markets will drive long-term portfolio value creation

WHAT WE DO

Create and Capture Superior Value at Every Step

PROPRIETARY SEEDLINGS

yield superior growth, wood quality and survival characteristics

CUSTOMIZED PLANTING

deploys the best genetic material for each acre on our land base

TARGETED SILVICULTURE

generates superior volume and value in each geography

HEALTHY FORESTS

that are diverse, productive and grown sustainably to financial maturity

HARVEST AND HAUL

efficiency and logistics capabilities for low-cost and reliable operations

DELIVERED LOG MODEL

captures maximum value from each tree using data-driven optimization

OPTIMAL RAW MATERIALS

to maximize mill margins through cost-effective fiber procurement

LOW-COST PRODUCER

that achieves top margin for lumber, panels and engineered wood

DIVERSE CUSTOMER MIX

that fully values our quality, scale, reliability and sustainable practices

PREMIUM LAND SALES

maximizing value from each acre via higher-and-better-use parcels

NATURAL CLIMATE SOLUTIONS

maximizing value through wind, solar, carbon, mitigation & conservation

STEADY ROYALTY & LEASE INCOME

maximizing value from surface & subsurface assets

WHY WE MATTER

Long-Standing Focus on Sustainability

- We manage the most sustainable, versatile resource on earth: forests
- We are experts at using trees to make products people need
- We do it the right way so our forests will last forever

WEYERHAEUSER TIMBERLANDS EXPORT MARKETS

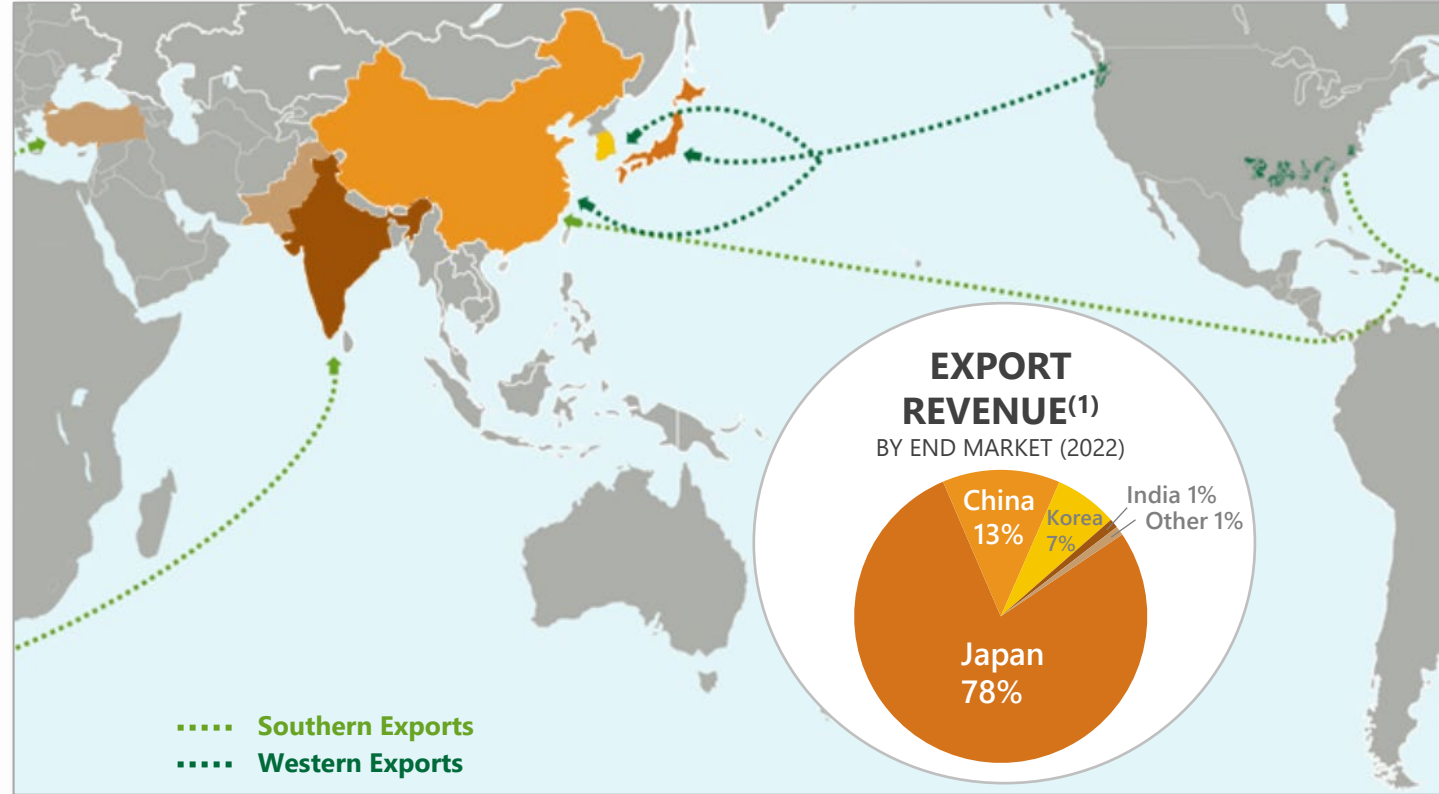

Unrivaled Market Position and Supply Chain Expertise

UNIQUE JAPAN EXPORT BUSINESS

- Multi-decade relationships supplying post & beam housing market
- Western timberlands ownership provides premium logs at unrivaled scale
- Largest log export facility in North America creates substantial supply chain advantage and efficiencies

OTHER WY EXPORT MARKETS

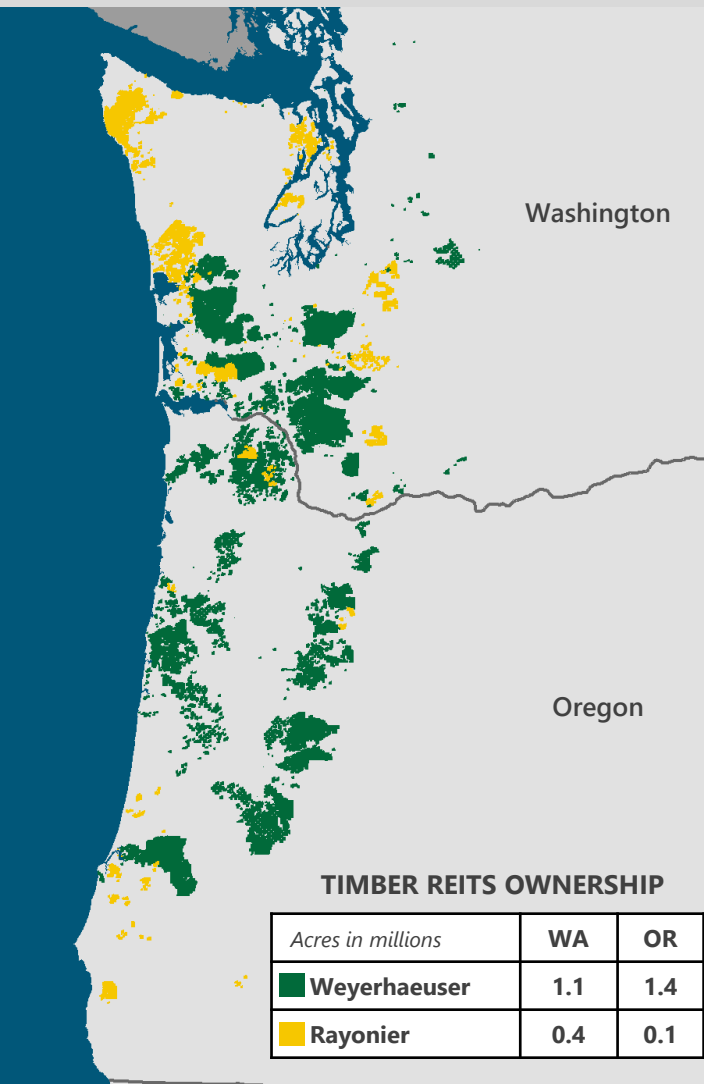

- Direct-to-customer strategy facilitates consistent demand
- Flexibility to quickly respond to shifts in global wood demand
- Southern exports positioned to grow
- Targeting new geographies and growing demand for wood fiber, biomass and pellets

(1) Adjusted EBITDA is a non-GAAP measure that management uses to evaluate the performance of the company. Adjusted EBITDA, as we define it, is operating income adjusted for depreciation, depletion, amortization, basis of real estate sold, unallocated pension service costs and special items. Adjusted EBITDA excludes results from joint ventures. Adjusted EBITDA should not be considered in isolation from and is not intended to represent an alternative to our GAAP results.

(2) Results exclude Real Estate, Energy & Natural Resources, which was reported as part of legacy Weyerhaeuser's Timberlands segment. West includes Plum Creek Washington and Oregon operations. South includes Plum Creek Southern Resources. North includes Plum Creek Northern Resources less Washington and Oregon. Results from Longview Timber are included in Other for 2013 and in Western Timberlands for 2014 and forward. Other also includes results from international operations and certain administrative charges.

(3) Results represent Plum Creek Timberlands EBITDA from October 1, 2011 through February 18, 2016.

We have not provided a reconciliation of forecasted Adjusted EBITDA related to Natural Climate Solutions to the most comparable GAAP measure because Adjusted EBITDA excludes the impact of certain items described in the definition above and management cannot estimate the impact these items will have on Adjusted EBITDA without unreasonable effort. We believe that the probable significance of providing these forward-looking non-GAAP financial measures without a reconciliation to operating income is that investors and analysts will have certain information that we believe is useful and meaningful regarding our Natural Climate Solutions business, but they will not have that information on a GAAP basis. As a result, investors and analysts may be unable to accurately compare the expected impact to our historical results or the results or expected results of other companies that may have treated such matters differently. Management believes that, given the inherent uncertainty of forward-looking statements, investors and analysts will be able to understand and appropriately take into account the limitations in the information we have provided. Investors are cautioned that we cannot predict the occurrence, timing or amount of all non-GAAP items that we exclude from Adjusted EBITDA. Accordingly, the actual effect of these items, when determined, could potentially be significant to the calculation of Adjusted EBITDA over the medium-term.

(1) Funds available for distribution (FAD) is a non-GAAP measure that management uses to evaluate the company's liquidity. FAD, as we define it, is net cash from operations adjusted for capital expenditures. FAD measures cash generated during the period (net of capital expenditures) that is available for dividends, repurchases of common shares, debt reduction, acquisitions, and other discretionary and nondiscretionary capital allocation activities. FAD should not be considered in isolation from, and is not intended to represent an alternative to, our GAAP results.

(2) Adjusted funds available for distribution (Adjusted FAD) is a non-GAAP measure that management uses to evaluate the company's liquidity. Adjusted FAD, as we define it, is net cash from operations adjusted for capital expenditures and significant non-recurring items. Adjusted FAD measures cash generated during the period (net of capital expenditures and significant non-recurring items) that is available for dividends, repurchases of common shares, debt reduction, acquisitions, and other discretionary and nondiscretionary capital allocation activities. Adjusted FAD should not be considered in isolation from, and is not intended to represent an alternative to, our GAAP results.
