Unallocated items are gains or charges not related to or allocated to an individual operating segment. They include a portion of items such as: share-based compensation, pension and postretirement costs, foreign exchange transaction gains and losses associated with outstanding borrowings and the elimination of intersegment profit in inventory and the LIFO reserve.

[^0]
[^0]:    *Adjusted EBITDA, excluding special items is a non-GAAP measure that management uses to evaluate the performance of the company. Adjusted EBITDA, as we define it, is operating income from continuing operations adjusted for depreciation, depletion, amortization, pension and postretirement costs not allocated to business segments (primarily interest cost, expected return on plan assets, amortization of actuarial loss and amortization of prior service cost/credit), special items and interest included in cost of products sold. Adjusted EBITDA should not be considered in isolation from and is not intended to represent an alternative to our GAAP results.
